Forecast Comp. Info: GitHub → Forecasting21 → README

Homework-Mcarver80: used for submissions, must pull and push in this folder

Pushing and pulling keeps versions up to date and leaves room for errors and editing

Pull (update info) from GitKraken

Repositories: Remote Folders that can be edited, copied, etc.

Create a copy of a repo: git clone /path/to/repository

Fork: occurs before cloning, is a copy of a remote repository, must push and pull to 'origin'
